NEO NANO NEEDLE

#Mesotherapy #Botulinum Toxin

NEO Nano Needle

Exquisite "Micro" Needle for Mesotherapy, Botox & Local Anesthetics

Penetrates Smoothly & Gently with Less Pain, Bleeding & Swelling

Fluent Flow

Smooth Surface

Various Size

Medical Safety

Compliant Design

Ultra Fine Injection Needles Thinner than Hair

Achieve Treatment Purpose with **Minimum Side Effects**

General Needle

Human Hair

Neo Nano Needle

Skin damage can be minimized during intradermal, subcutaneous and muscle injections.

Mesotherapy

Local Anesthetics

Adipolysis

Vitamin Shots

Botox

5 Reasons to Use Nano Needles

- 1 Safe Treatment**
Side effects such as pain, swelling, erythema, and edema **can be avoided.**
- 2 Low Skin Damage**
Reduce microbial destruction and **cause minimal damage** only on the epidermis.
- 3 Less Pain**
No resistance and pain of injection to **lessen patient discomfort.**
- 4 Precise Treatment**
Specific layer of skin and tissue can be **accurately targeted for injection.**
- 5 Quick Recovery Period**
Minimum bleeding allows for **recovery within a day.**

For a Safer and More Precise Treatment

Neo Needle Series

Neo Nano Needle

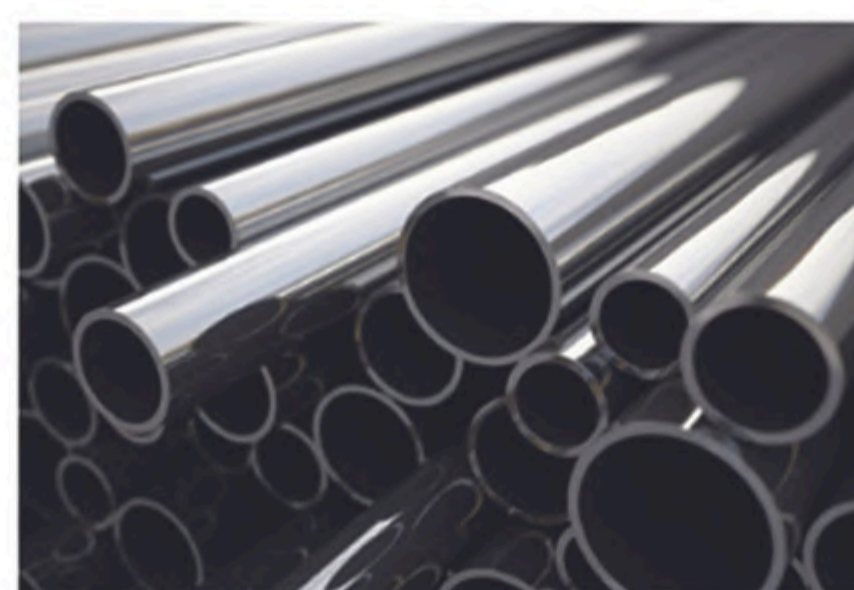

Neo Filler Cannula

Safe Materials for Medical Use

Outstanding Resistance to Chemical Solutions

Needle Tube

Premium Stainless Steel 304

- Resistant to corrosion from chemicals
- Strong durability with appropriate metal combination
- High processibility for delicate plastic surgery

Connection Hub

Medical Grade Polypropylene

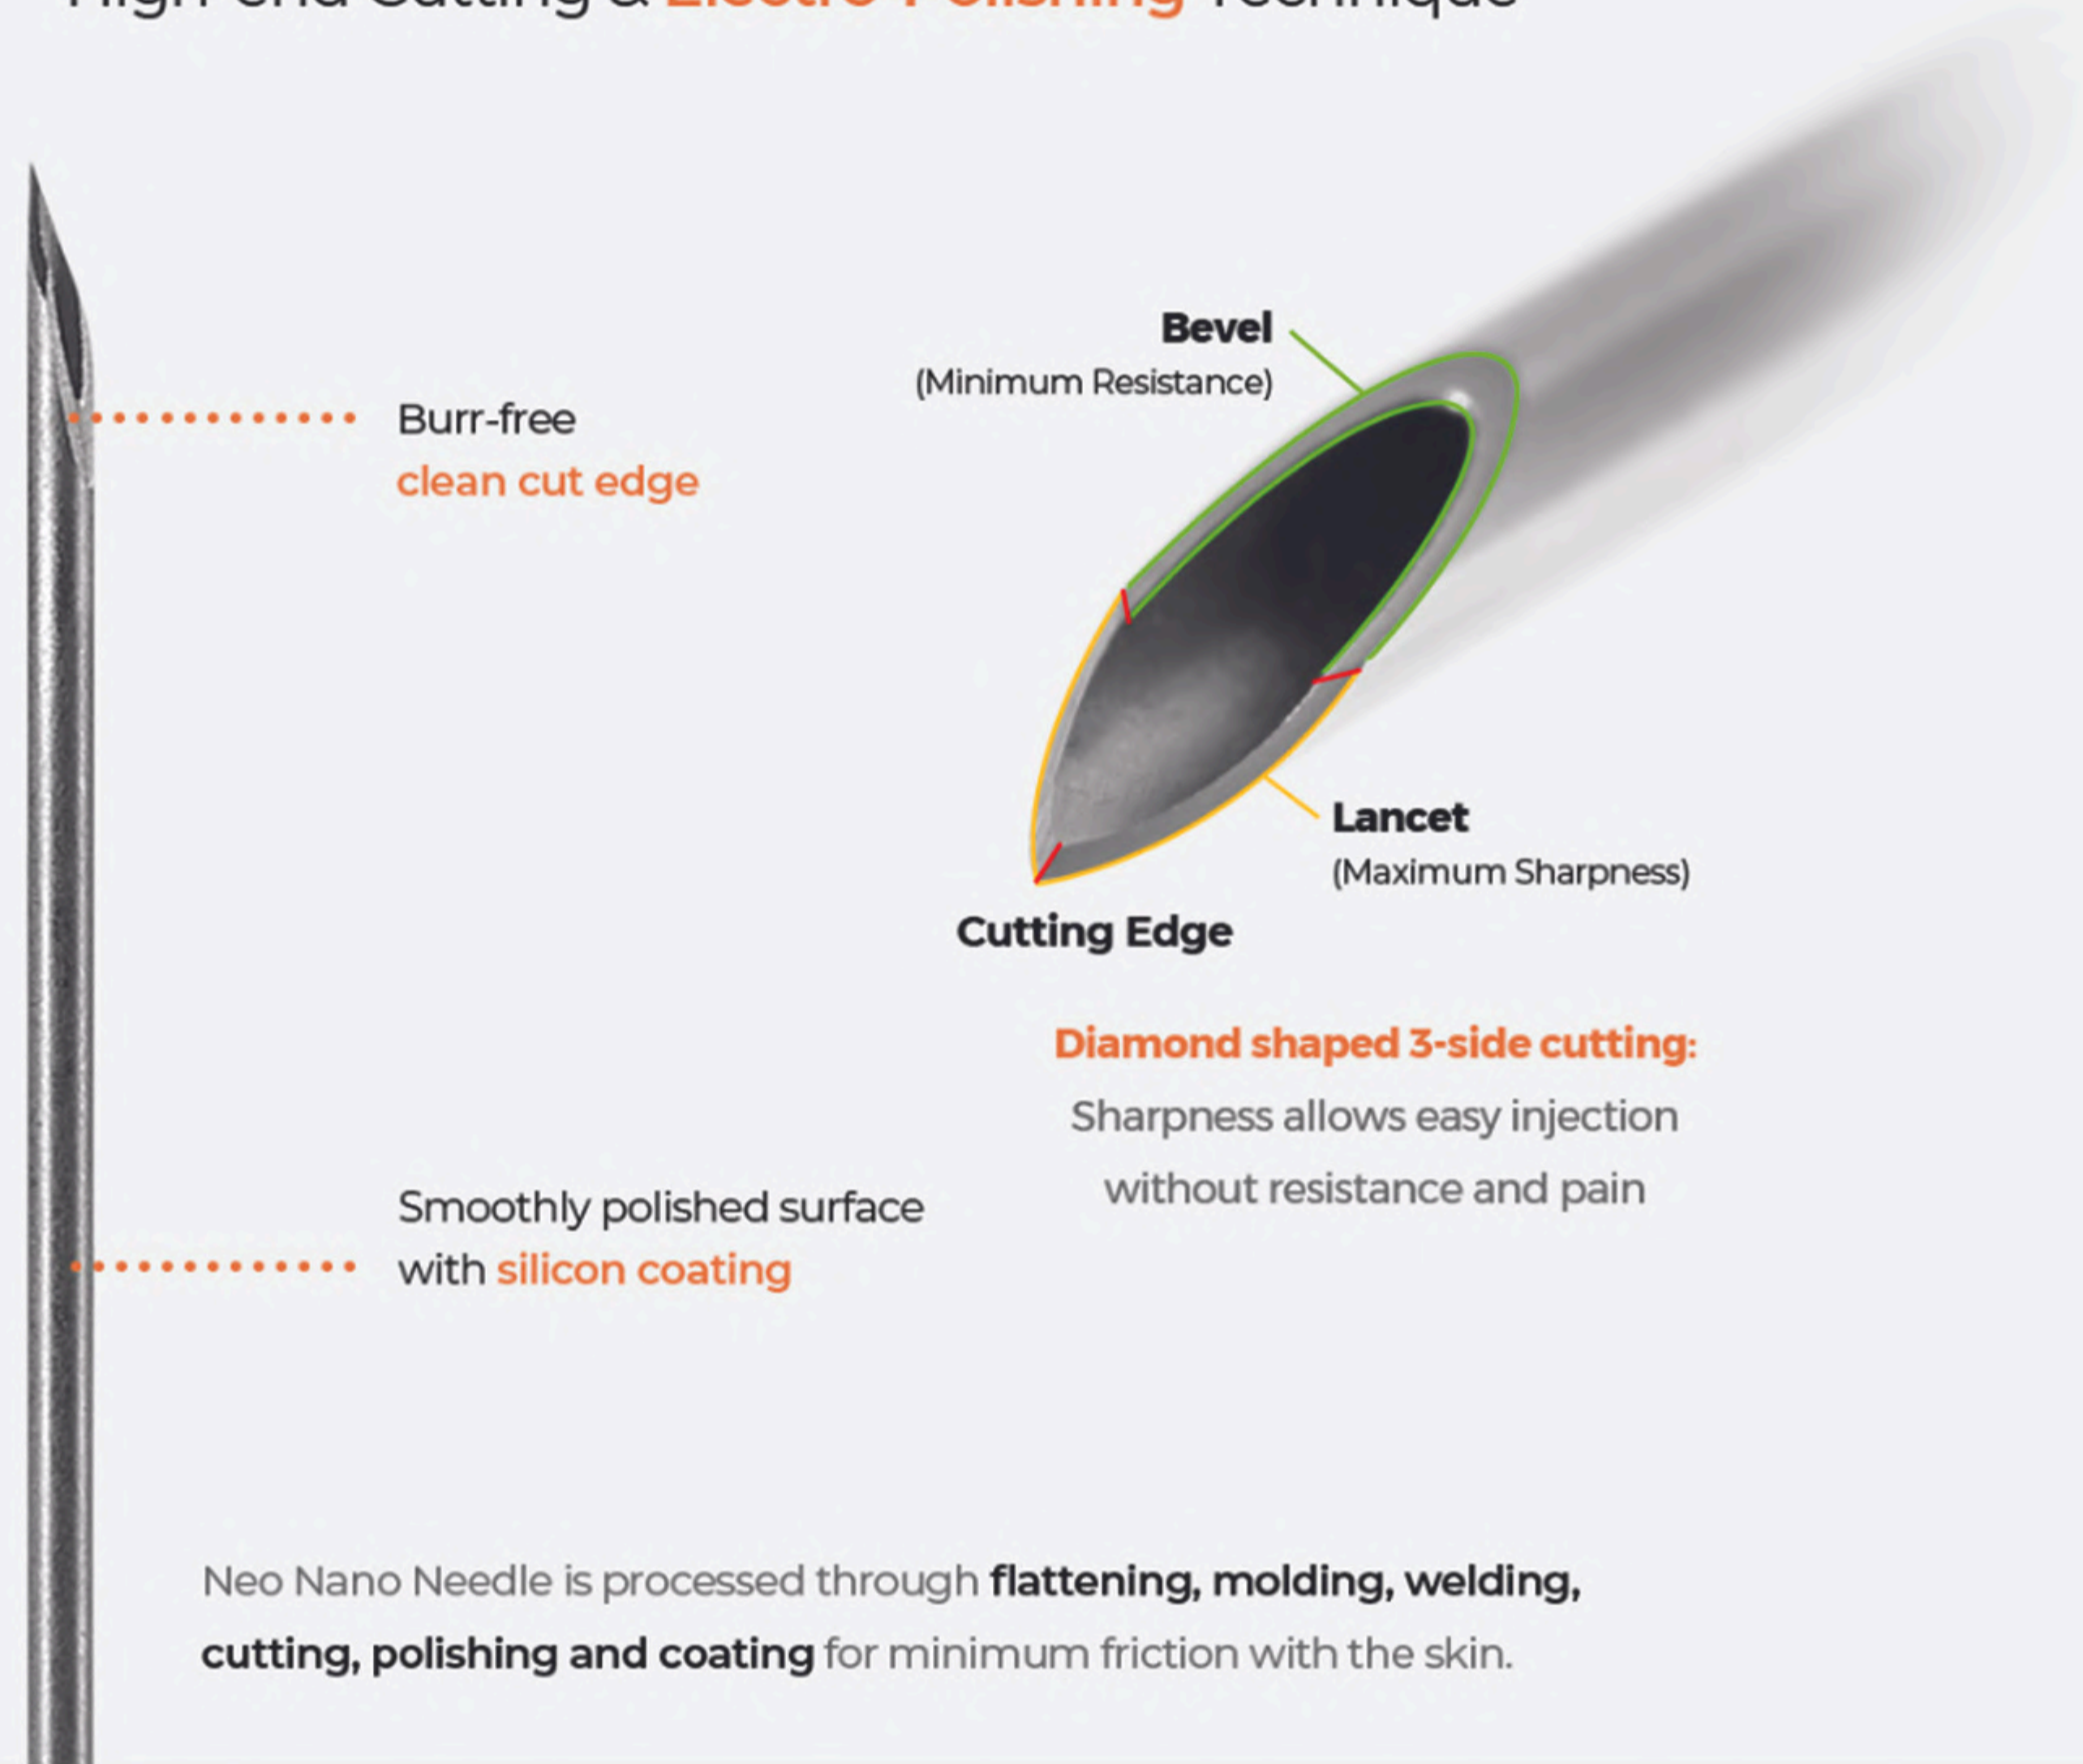

- Anti-pollution material that doesn't absorb the solution
- Chemical-resistant for safety
- High melting point for durability

Neo Nano Needle is capped and **packaged individually**, and has been **sterilized for 10~12 hours** with EO gas for safe use.

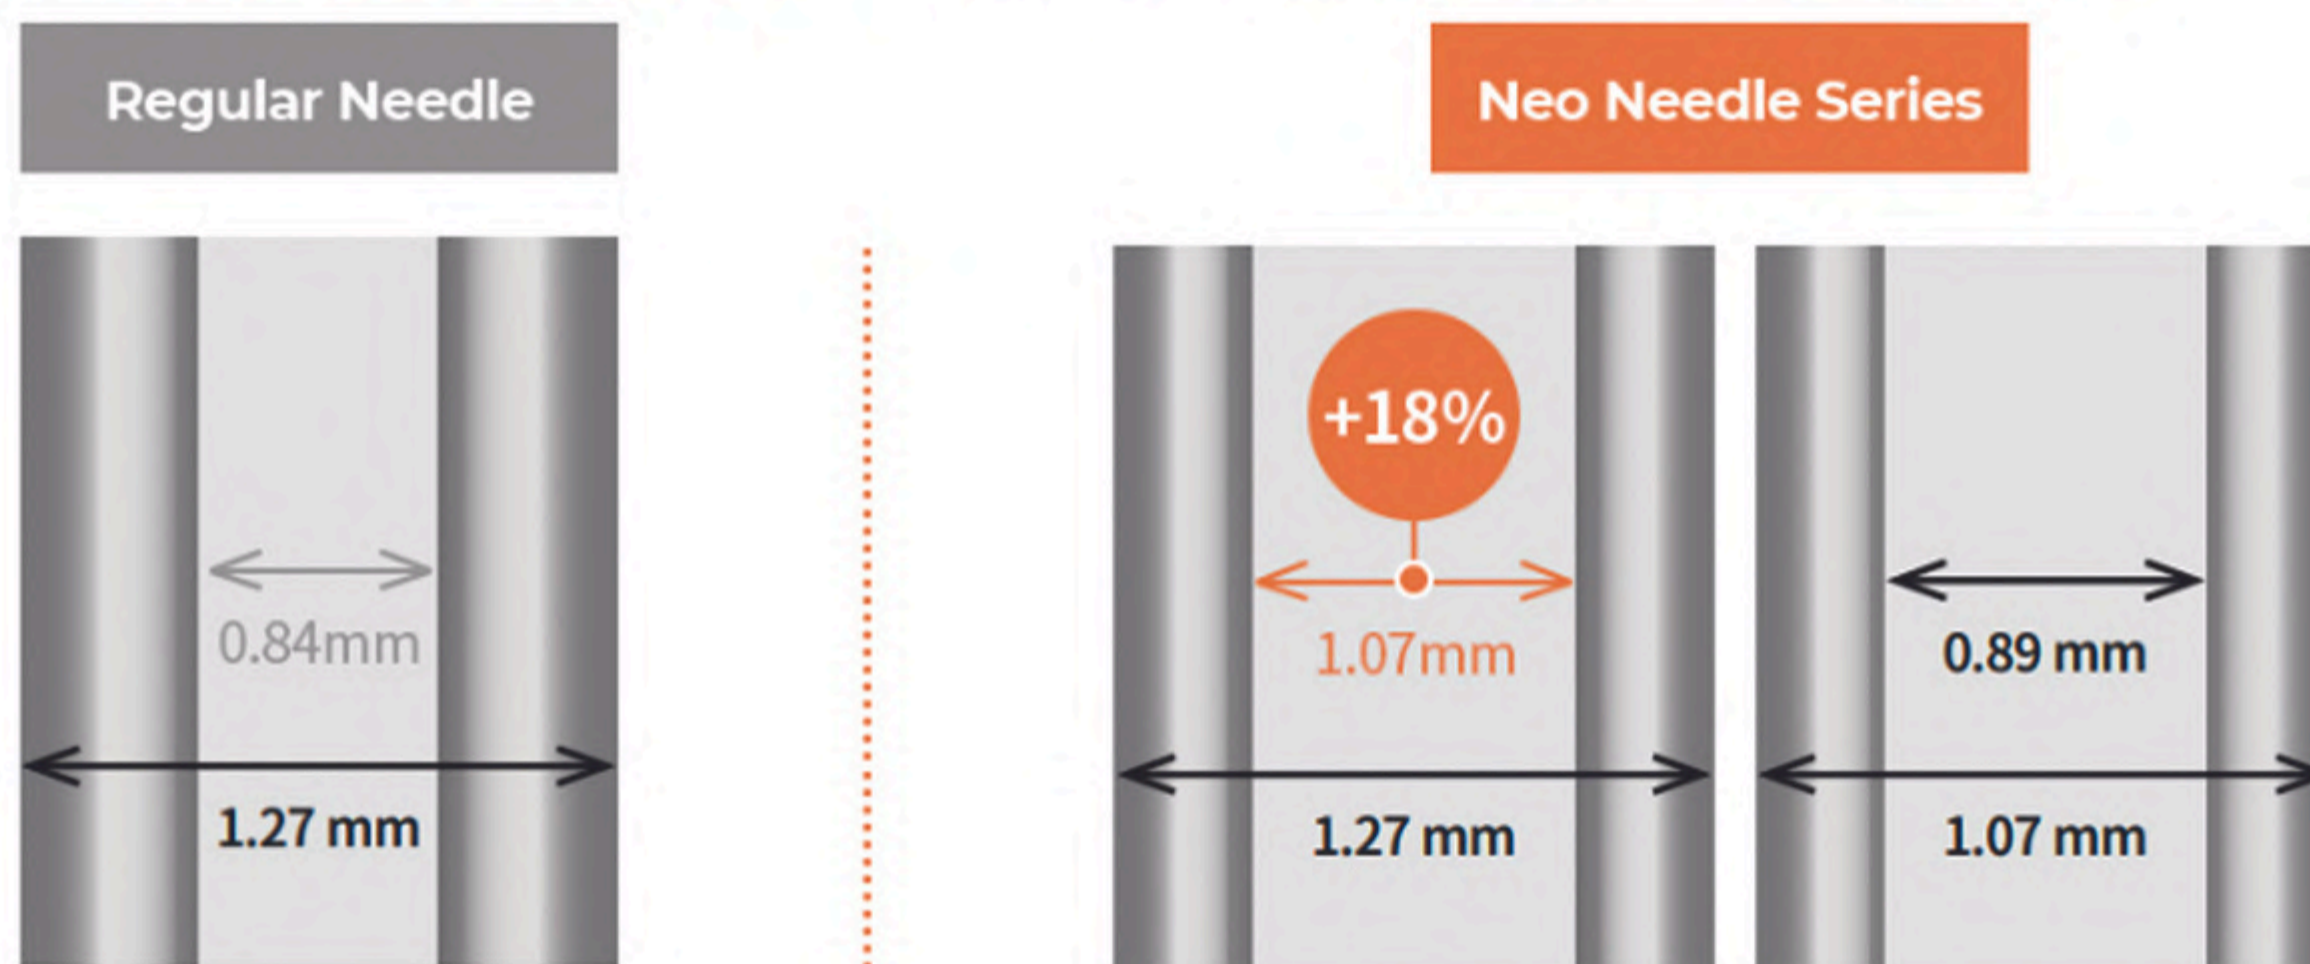

Smooth Surface for Irritation-Free Injection

High-end Cutting & **Electro-Polishing** Technique

Wide Internal Passage for Smooth Flow

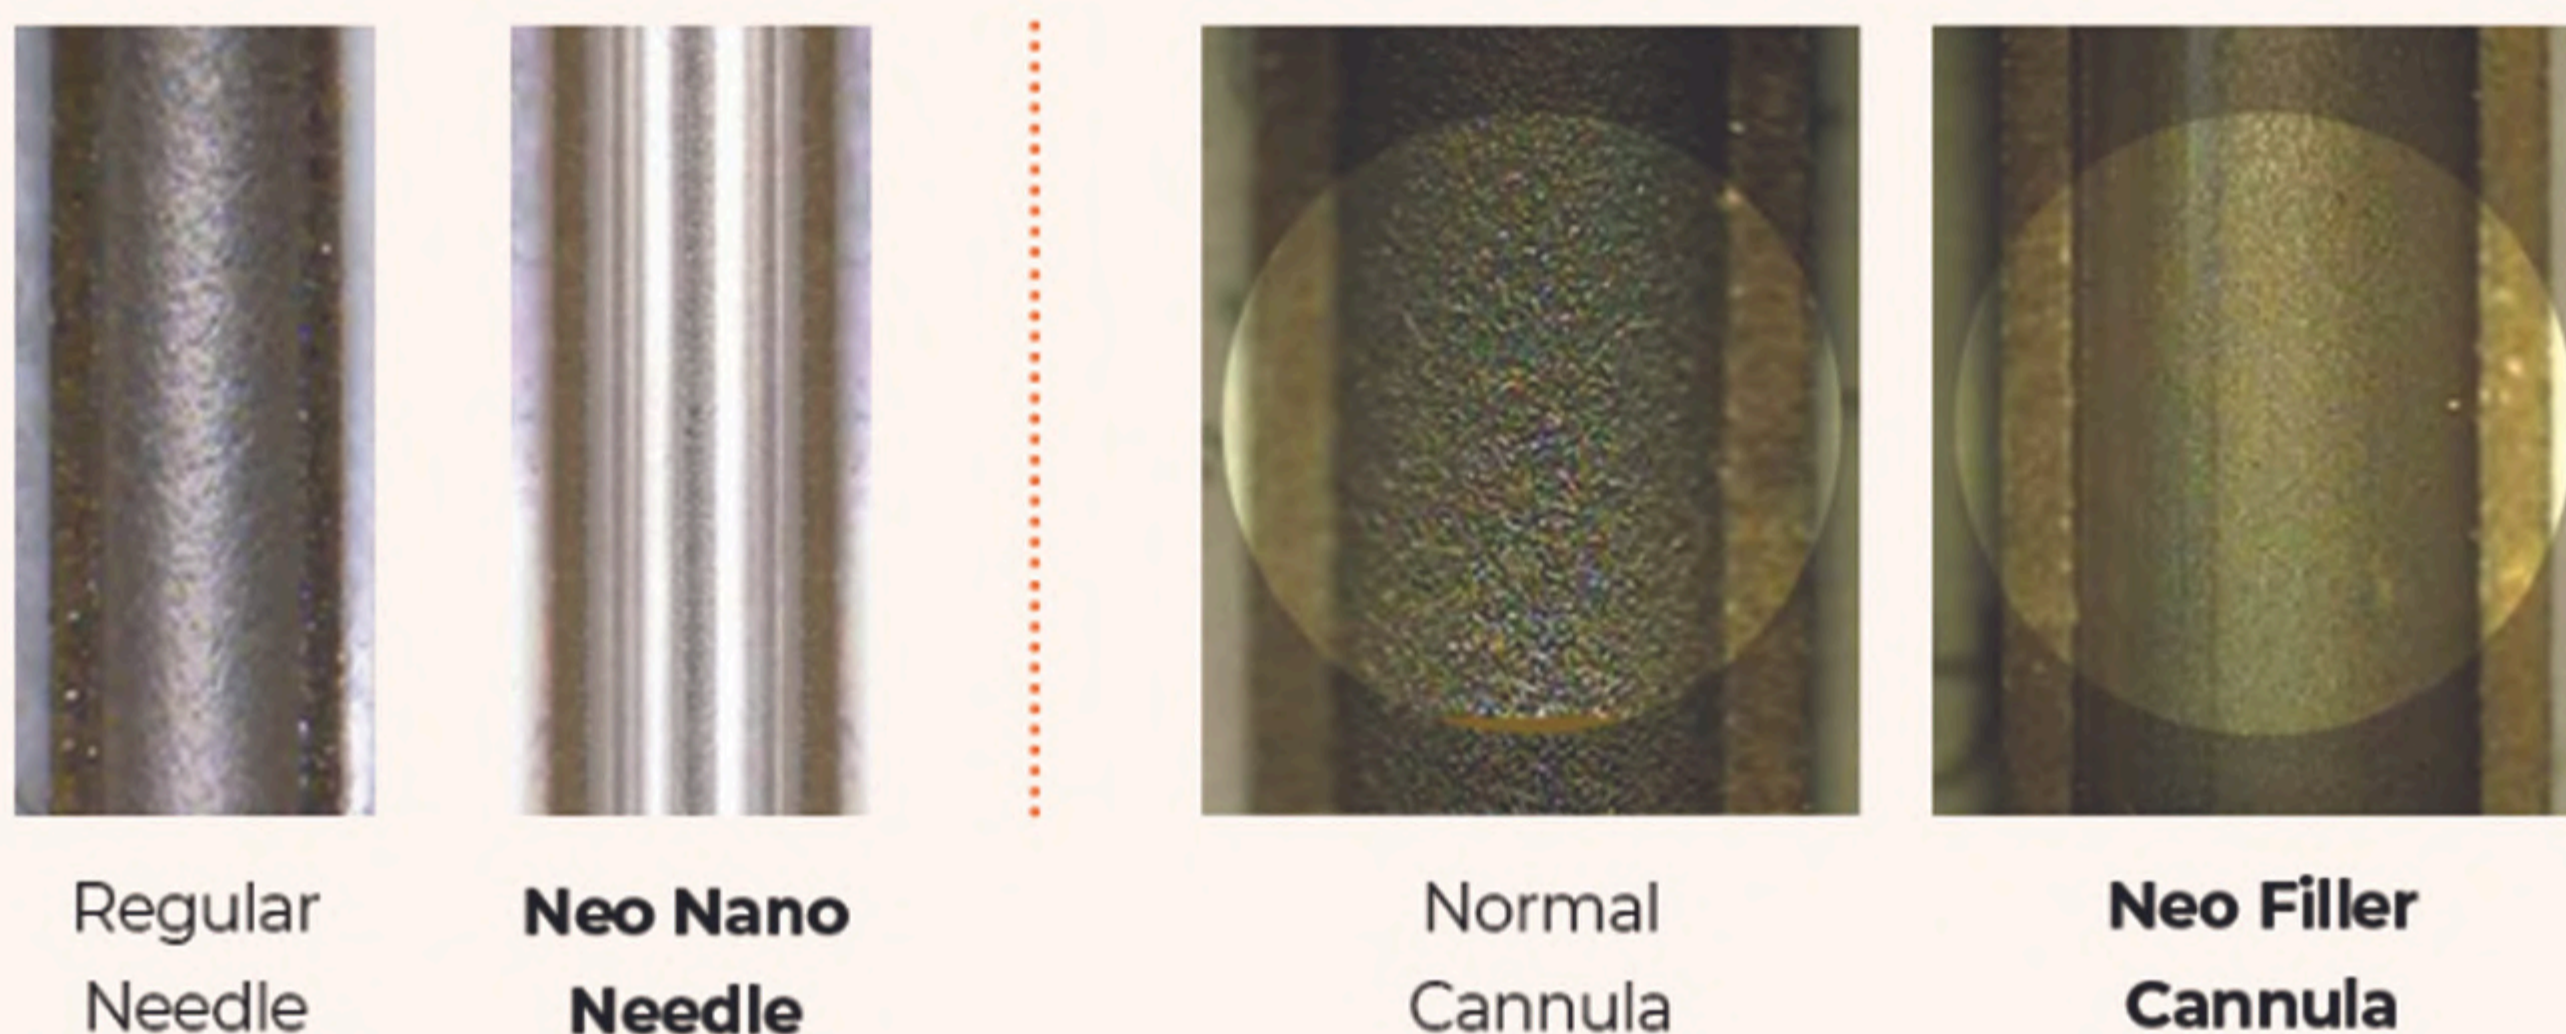

Up to 18% Wider Inner Diameter than Competition

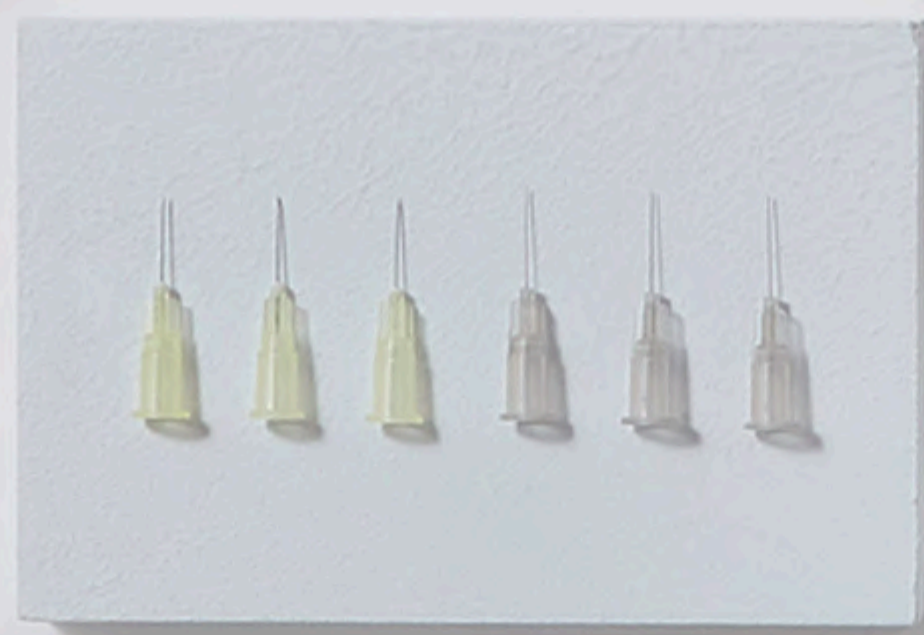

Neo Needle Series **minimized the width of the wall** while maintaining the outer diameter, for a **bigger inner diameter**.

This makes for minimum injection discomfort and **smooth injection of contents**.

Neo Needle Series also has a Smoother **Inner Surface**

Actual Image Comparison of Inner Diameter and Surface Texture

7 Models for Various Application

Specifications and Design that **Satisfy International Standard Guidelines**

✓ 3 Different Thicknesses(34/33/30G)

✓ 3 Different Lengths(4/6/13mm)

Neo Nano Needle are produced at **GMP certified facilities** in compliance with **ISO standards** for all specifications, such as needle thickness, hub color by thickness, tip shape, and material.

Neo Nano Needle is registered with the CE and has KFDA medical grade certification which verifies its quality and safety.

SPECIFICATIONS

Product sterilized through EO gas for one-time use.
